Red Delicious are RED

How many apples can you find?

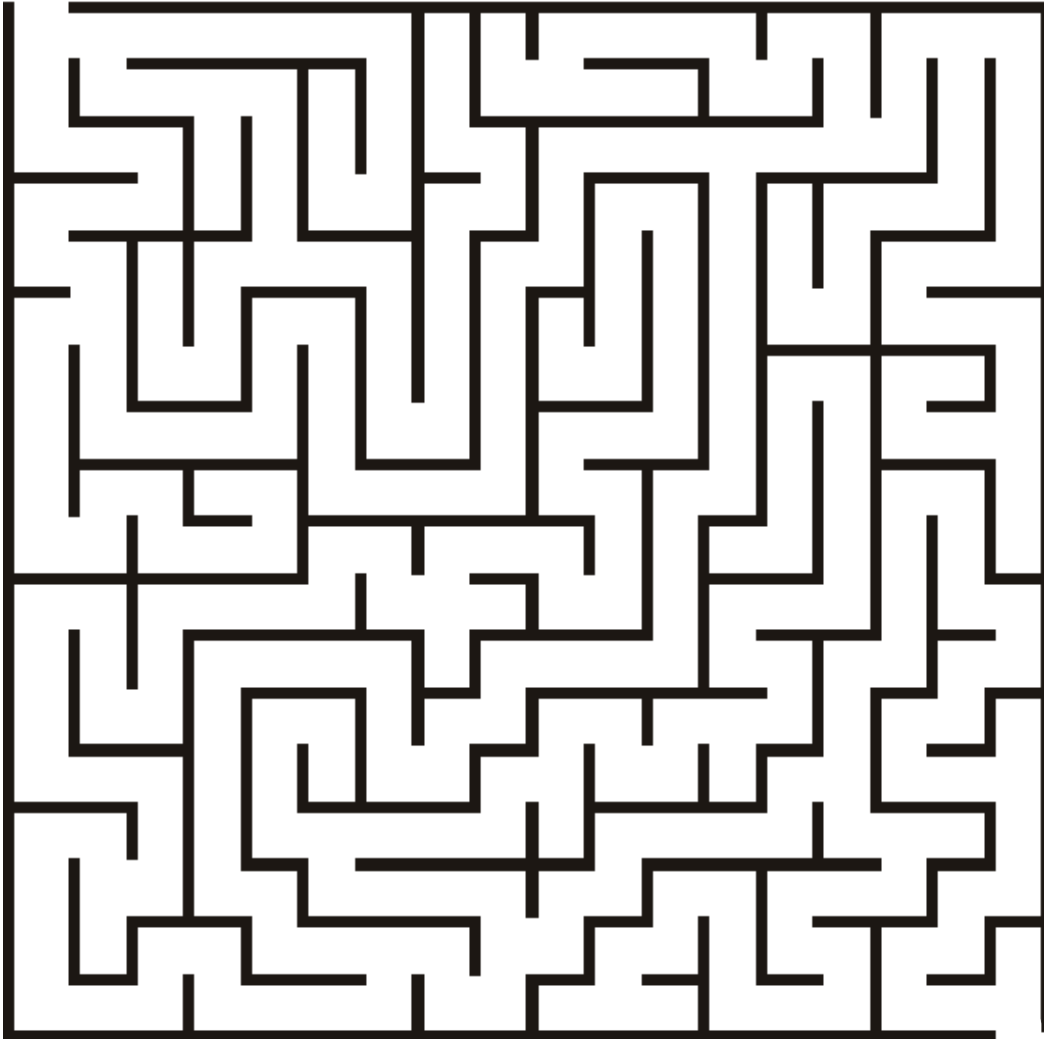

2565 Alluvial Ave., Ste. 182
Clovis, CA 93611
www.calapple.com

Apples grow in trees with their friends. Can you help Arty find Annie?

START

FINISH

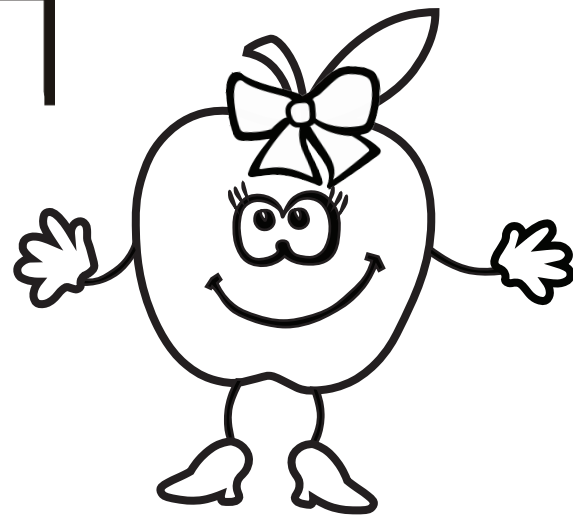

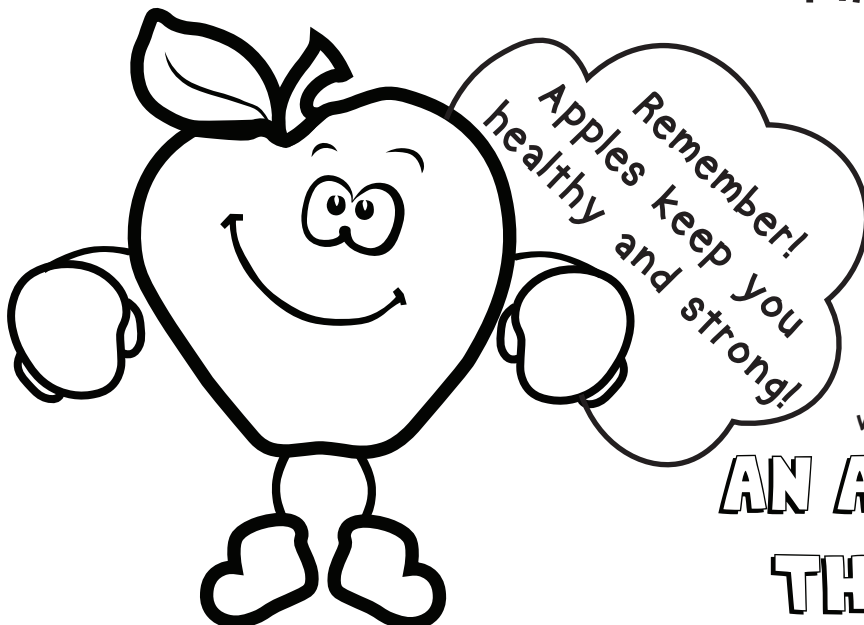

Apples are a fruit, and are a member of the rose family.

Apples can be as small as a cherry, or as big as a grapefruit!

The Pilgrims planted the first United States apple trees in the Massachusetts Bay Colony.

An apple tree takes about 4-5 years to produce fruit.

Some apples trees live to be over 100 years old, and can grow up to 40ft. high! (That's as tall as a 4 story building!)

WHY SHOULD YOU EAT MORE APPLES??

**AN APPLE A DAY KEEPS
THE DOCTOR AWAY!**
